Reclaim your brain! Get Puzznic™

— it's the fast-paced puzzle that'll give your mind a heavy duty workout.

Puzznic seems easy — move and match geometric shapes to wipe out all the puzzle pieces. Trouble is, you've got to match the shapes in just the right order — or you won't blast one puzzle and get to the next. Rack up bonus points for matching multiples — if you're really fast, you can beat the clock and start some chain reaction action. And when you finish the first **160 puzzles**, the fun's not over. You also get **Gravnic™**, the *bonus game* that lets you play against gravity.

So dump the fake stun gun. You've got a few more hours before the universe goes terminal. Pump up your brain cells with Puzznic. When you pop back into those ninja pajamas, you might just have a fighting chance.

TurboExpress
NEC Technologies

NEC's TurboExpress is the new king of hand-held videogame systems. Because it uses the same game cartridges as the full-size NEC TurboGrafx-16, a large library of games is instantly available for the TurboExpress. But the most outstanding feature of the TurboExpress is its color liquid-crystal display screen, the first active-matrix LCD ever used in a hand-held. Its color, sharpness, and illumination set it apart from all other portable game systems.

THE HOTTEST TICKET IN TOWN.

Get ready for the blockbuster of the year. IKARI III, THE RESCUE. The hottest ticket in town for your Nintendo system.

It's the end of the 20th century. A worldwide economic recession wreaks havoc with the nation and the planet. The impending threat of anarchy has given rise to a secret vice organization called "Crime Ghost" led by the mastermind "Faust", who's dangerously poised to take over the world with his diabolic strategy,

There is one president who has initiated a plan to wipe out the association, and he has summoned you, the incredible Ikari Warriors Paul and Vince, to penetrate the enemy hideout and rescue his daughter Elise. But first, you must fight the Crime

Ghost and attempt to destroy them all. To do this, you will use your undersea scuba tactics and guerilla fighting power. Fire machine guns, throw grenades and kick some butt using your own brute strength. Add to that superior martial arts skills using round house and jump kicks, punches and more. Only the Ikari Warriors can save the world from chaos!

To be the first one on your block to see the hit of the year, call SNK at **1-800-PLAY-SNK** and find out more.

SEE SNK AND IKARI III AT THE CES SHOW IN THE NINTENDO SECTION, BOOTH 27 & 28. ALSO STARRING, CRYSTALIS AND LITTLE LEAGUE BASEBALL. PLUS DEXTERITY FOR THE GAMEBOY
